

GDL Framework

Answer Template

Learner holding period of 12 months

The answer sheet for learner holding period of 12 months is to compile the answers from the data input template.

Licensing data

Step 1

a. Average number of months on a learner license for someone obtaining a learner license at age 16 TOTAL 1

b. Average number of months on a learner license for someone obtaining a learner license at age 17 TOTAL 2

Step 2

a. Number of 16 and 17 year olds with a learner license TOTAL 3

b. Number of 16 and 17 year olds with a provisional (intermediate) license TOTAL 4

Crash rates

Step 1

a. Learner drivers aged 16 to 17

Most recent data year

Crash rate for learner drivers for the most recent year (aged 16 to 17) TOTAL 5

5 years ago

Crash rate for learner drivers for 5 years ago (aged 16 to 17) TOTAL 6

b. Provisional drivers aged 16 to 17

Most recent data year

Crash rate for provisional drivers for the most recent year
(aged 16 to 17)

TOTAL 7

5 years ago

Crash rate for provisional drivers 5 years ago
(aged 16 to 17)

TOTAL 8

c. Adult drivers aged 25-44

Most recent data year

Crash rate for licensed drivers for the most recent year
(aged 25 to 44)

TOTAL 9

5 years ago

Crash rate for licensed drivers 5 years ago
(aged 25 to 44)

TOTAL 10

Step 2

a. Learner drivers aged 16 to 17 years

Crash rate percentage of change

Percentage of change for crash rate
(learners aged 16 to 17)

TOTAL 11

Was there a increase or decrease in crash rate?
(learners aged 16 to 17)

TOTAL 12

Increase / Decrease

b. Provisional drivers aged 16 to 17 years

Percentage of change for crash rate
(provisional aged 16 to 17)

TOTAL 13

Was there a increase or decrease in crash rate?
(provisional aged 16 to 17)

TOTAL 14

Increase / Decrease

c. Adult drivers aged 25 to 44

Percentage of change for crash rate
(drivers aged 25 to 44)

TOTAL 15

Was there a increase or decrease in crash rate?
(drivers aged 25 to 44)

TOTAL 16

Increase / Decrease

Step 3

Compare crash rate percentage of change

Is the percentage of change in crash rate for learner drivers aged 16 to 17 years lower than the rate for drivers aged 25 to 44 years?

TOTAL 17

Lower / Higher

Is the percentage of change in crash rate for provisional drivers aged 16 to 17 years lower than the rate for drivers aged 25 to 44 years?

TOTAL 18

Lower / Higher

Traffic Injury Research Foundation

The mission of the Traffic Injury Research Foundation (TIRF) is to reduce traffic-related deaths and injuries. TIRF is a national, independent, charitable road safety institute. Since its inception in 1964, TIRF has become internationally recognized for its accomplishments in a wide range of subject areas related to identifying the causes of road crashes and developing programs and policies to address them effectively.
